Introduction

This Medication Guide includes an abbreviated listing of Generic, and a complete listing of Brand Prescription Drugs on the Healthy Kids Preferred Medication List (PML). Changes in the PML can occur over time. The most up-to-date listing can always be found by viewing the Healthy Kids Medication Guide online at www.bcbsfl.com or by calling the customer service number listed on your identification card. For the hearing impaired, call Florida TTY Relay Service 711.

We reserve the right to add or remove any Drug or Supply on the Healthy Kids Preferred Medication List at any time.

Note: Any decision concerning whether a Prescription Drug or Supply should be prescribed must be made by you and your doctor. Any and all decisions that require or pertain to independent professional medical judgments or training, or the need for, and dosage of, a Prescription Drug, must be made solely by you and your treating doctor in accordance with the patient/doctor relationship.

PRESCRIPTIONS FOR NON-PREFERRED MEDICATIONS

A formulary exception process is provided to allow for cases where the Healthy Kids PML may not accommodate the unique medical needs of a member (e.g. documented allergy, ineffectiveness, or intolerable adverse effects with the preferred drugs). Ask your doctor to complete the Healthy Kids Formulary Exception Form at www.bcbsfl.com, Physicians and Providers, Tools & Resources, Forms, to request an exception.

USING THE PREFERRED MEDICATION LIST

The PML is organized into broad categories. Within most categories, Drugs are sub-grouped by Drug class such as penicillin, or by use for a specific medical condition, such as Diabetes.

Generic prescription drugs, where shown, are in lowercase boldface type followed by a reference Brand (in parentheses) to assist in product recognition. Some Generic Prescription Drugs have no referenced Brand Name Drug.

Example: **lamotrigine** (Lamictal)

Brand Name Prescription Drugs are shown in all capital or upper case letters.

Example: PROAIR HFA

Separate drug entries are required for some dosage forms or routes of administration including extended-release, delayed-release, rectal, injectable, otic, ophthalmic, vaginal, nasal, orally disintegrating, patches, and topical products.

Example: **methylphenidate** (Ritalin)
methylphenidate ext-release (Ritalin SR)

COST INDEX

Dollar signs are based upon Average Wholesale Price (AWP) or Maximum Allowable Cost (MAC) and range from one (\$) to five (\$\$\$\$\$), ranking drugs from least to most expensive. Within the same number of dollar sign, drugs are listed alphabetically. Dollar signs for maintenance drugs are typically based upon a 30-day supply at a commonly prescribed dosage. For drugs not taken 30 days per month, a more appropriate basis is used to determine dollar signs.

GENERIC DRUGS

Blue Cross and Blue Shield of Florida, Inc. encourages the use of Generic Drugs as a way to provide high-quality Drugs at a reduced cost. Generic Drugs are as safe and effective as their Brand Name counterparts, and are usually less expensive

A Food and Drug Administration (FDA) approved Generic Drug may be substituted for its Brand name counterpart because it:

- Contains the same active ingredient(s) as the Brand Name Drug
- Is identical in strength, dosage form, and route of administration
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile

Check with your doctor or health care provider to determine if switching to a Generic Drug is appropriate for you.

MEDICATIONS REQUIRING PRIOR AUTHORIZATION

Drugs selected for Prior Authorization (PA) may require that specific clinical criteria are met before the drugs will be covered under a member's prescription benefit. Drugs on the Preferred Medication List that may require a PA for coverage are designated with "PA" following the product name. Your doctor or health care provider can request a prior authorization by completing the appropriate Prior Authorization Form at www.bcbsfl.com.

RESPONSIBLE QUANTITY

Drugs included in this program allow a maximum quantity per time period. Quantity limits are typically developed based upon FDA-approved Drug labeling and nationally recognized therapeutic clinical guidelines. Responsible Quantity Program Drugs are designated in the PML with "QL" following the product name. In cases where a larger quantity of a Responsible Quantity Drug is medically required, your doctor or health care provider can request an authorization by completing the Quantity Limit Authorization Form at www.bcbsfl.com. BCBSF reserves the right to change the Drugs and the quantity limits subject to the Responsible Quantity Program at any time and for any reason.

RESPONSIBLE STEPS

Drugs included in this program are not covered unless you first try another designated or prerequisite Drug. Responsible Steps Program Drugs are designated in the PML with “RS” following the product name. If you cannot use the prerequisite Drug for medical reasons, your doctor or health care provider may request prior authorization for an override by completing the appropriate Responsible Step Authorization Form at www.bcbsfl.com. If the prior authorization request is approved, coverage will be provided for the Responsible Step Drug. BCBSF reserves the right to change the Drugs subject to the Responsible Step program at any time and for any reason.

COVERED OVER-THE-COUNTER (OTC) PRODUCTS

Your Pharmacy benefit provides coverage for certain OTC Drugs, if your doctor or health care provider prescribes them. However, only those OTC Drugs designated on the PML with “OTC” following the product name are eligible for coverage. BCBSF reserves the right to change the OTC Drugs covered at any time and for any reason.

NOTICE

This Healthy Kids Medication Guide shall not extend, vary, alter, replace, or waive any of the provisions, benefits, exclusions, limitations, or conditions contained in the Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement. In the event of any inconsistencies between the Healthy Kids Medication Guide and the provisions contained in the Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement, the provisions contained in the Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement shall control to the extent necessary to effectuate the intent of Blue Cross and Blue Shield of Florida Inc.
