Email your completed form to us at [ICD-10testing@floridablue.com](mailto:ICD-10testing@floridablue.com)

Note: It is critical to successful testing that we collaborate with both providers and their vendors who enable ICD-10 transactions for their clients.

# Allergy: Clinical Dx Scenarios

## INSTRUCTIONS

1. Print this form in order to complete it by hand.
2. Complete your contact information at left of form.
3. Select up to four (4) scenarios below for practice coding.
4. Instruct your medical coder(s) to complete this document by coding your selected scenarios first using ICD-9 Dx codes followed by ICD-10 Dx codes. Be sure coder(s) understand they are to code in ICD-10 from the selected clinical scenarios vs. coding from ICD-9 to ICD-10 (mapping).
5. Scan and return by email your completed form to [ICD-10testing@floridablue.com](mailto:ICD-10testing@floridablue.com). If you do not have access to a scanner and would like to return your form to us via fax, please fax to 904-997-5571, Attn: Martina Fiorelli.
6. Within two weeks of receipt, Florida Blue will review your completed coding document and provide you with observations for scenarios that we have identified as a potential impact to claims adjudication.

NOTE: If you prefer, you may contact Florida Blue via email [ICD-10testing@floridablue.com](mailto:ICD-10testing@floridablue.com) and you will be provided an Excel spreadsheet on which you can view and code these same scenarios.

Scenario #	Scenario Description	ICD-9 Code	ICD-9 Description	ICD-10 Code	ICD-10 Description
S019	A 3-year-old boy was brought into the office for a scheduled yearly wellness visit but the mother mentioned that he has been coughing and sneezing for the past few days after coming in from outside. He has a history of allergies due to pollen. Physical exam was performed. Patient's general growth was measured, evaluated and discussed along with development progress. Advised parent to administer an over-the-counter allergy medication as needed to treat symptoms and if problems persist or worsen return to office for further evaluation. <b>Impressions:</b> Annual child examination, cough, and allergic rhinitis due to pollen.				
S084	A 38-year-old male comes into the office complaining of severe headache, fever and pain around cheeks and nose for several weeks. Physical exam revealed tenderness over sinuses. Prescribed a nasal corticosteroid, Flonase, and recommended Tylenol for pain and discomfort. Also, patient is encouraged to get plenty of rest and drink plenty of fluids. Return if symptoms don't improve. <b>Impression:</b> Acute sinusitis.				
S087	A 32-year-old female comes into the office with complaints of itchy nose, mouth and throat along with constant coughing and sneezing. She says she has an history of allergic rhinitis due to dust. Physical exam was performed and allergen avoidance was discussed with the patient along with symptom management. Advised OTC antihistamines and prescribed Nasonex nasal spray. <b>Impression:</b> Allergic rhinitis due to allergen.				

Scenario #	Scenario Description	ICD-9 Code	ICD-9 Description	ICD-10 Code	ICD-10 Description
S088	<p>A 24-year-old male comes into the office complaining of nasal congestion, headache, sore throat and swollen eyes. He states that he has a history of allergic rhinitis but no other history or chronic problems. Physical exam is performed. Advised patient on tactics to avoid possible allergen triggers. Plan is to continue OTC antihistamines and decongestants as needed. Schedule a follow-up visit if symptoms continue to persist.</p> <p><b>Impression:</b> Allergic rhinitis, cause unspecified.</p>
