

New to Market Drugs (Nuevos medicamentos en el mercado) Current (Corriente) April 2024

Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication, to determine whether the medication will be covered and if so, which tier will apply based on safety, efficacy and the availability of other products within that class of medications.

Las medicinas recetadas más recientes no podrán estar cubiertas hasta que el Pharmacy & Therapeutics Committee (Comité de Farmacia y Terapéutica) haya tenido la oportunidad de revisar la medicación, para determinar si la medicina estará cubierta y, en caso afirmativo, en qué nivel se aplicará sobre la base de la seguridad, la eficacia y la disponibilidad de otros productos dentro de esa clase de medicinas.
