

Prior Authorization Program Information

Current 1/1/19

Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine if the medication will be covered and if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. The current list of newly marketed drugs can be found on our [New to Market Drug list](#).

For drugs covered at the pharmacy, Florida Blue prefers electronic prior authorization requests through [CoverMyMeds](#) – a free ePA service that allows prescribers to submit and check the status of a PA request electronically. [CoverMyMeds](#) can also be used for PA reviews for self-administered specialty drugs if AllianceRx Walgreens Prime is the dispensing pharmacy.

Specialty medications intended to be filled by Caremark Specialty pharmacy should not be requested through CoverMyMeds. Use the Caremark Specialty enrollment form to begin the PA process for those cases.

Important:

- Prior Authorization requirements may vary. Certain drugs may not be covered by certain member plans.
- Refer to the member's individual policy for inclusion in the PA program and medication guide for determination of coverage.
- Member cost share may be higher for [self-administered specialty drugs](#) not obtained at an in-network specialty pharmacy.
- If you are enrolled in our Provider Administered Drug Program (PADP) and wish to buy and bill a drug on this list, please refer to the [PADP section](#) of our online provider manual for a current list of drugs included.
- [CoverMyMeds](#) can be utilized instead of standard fax forms for any of the drugs below associated with a [CoverMyMeds ePA](#) link. Visit <https://www.covermymeds.com/main/> to register or complete a PA request.
- If you have questions or need further assistance after consulting this table, call our Provider Contact Center or the number on the back of your insurance card.

Therapeutic Category	Drugs Included in Program*	Links
Alternate Prior Auth program	All drugs rejecting with "alternate PA program" message	
Antifungals	Cresemba, Ertaczo, Exelderm, Jublia, Kerydin, Lamisil granules, Noxafil, Onmel, Oxistat, Sporanox (itraconazole), Terbinex, Vfend (voriconazole)	Authorization Form
